**AUGUST 20-25—ORIENTATION WEEK:** Things were sure busy during the Orientation Week. Student Orientation was held August 20-21. The following information sessions were given: Mr. Coberley, drugs and VD; Mr. Sams, the lecture method of teaching; Roy Ball and Sue Hanson, rules and regulations and student activities; Mrs. Driscoll, reading and study skills; Dr. DeCabooter, community colleges; Mrs. Williams, individualized courses; and Mr. Zimmermann, LRC orientation. On August 23 a dance sponsored by the Student Senate was held. "Genesis Rock," a band from Peoria, performed during the outdoor dance. On August 25 Family Orientation was held, with talks given by Dr. DeCabooter, Dr. Reid, and Mick Henneberry. On September 21 the Student Senate sponsored a campus-wide picnic at Francis Park to culminate the first month of school.

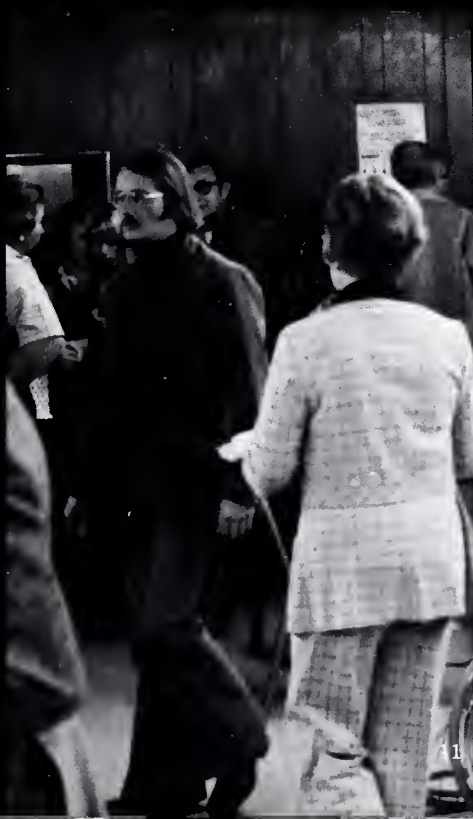

1. Here stand those four courageous creatures who later sacrificed their lives for BHE's Whole Hog Barbecue!
2. Mr. Coberley and Mitch Winn prepare to trim the "porkies" at the locker plant.
3. Al Kitterman checks the lid on the BBQ roaster.
4. Mr. Coberley and Mr. Stahl carefully lift out one of the hogs when barbecued to perfection.
5. Mr. Stahl, Wayne Mowers, and Roy Ball place the barbecued hog on a table so that it will be ready when the first hungry guests arrive.
6. George Giesenhagen, Mr. Anderson, Dennis Aupperle, Mr. Wolf, and Wayne Mowers carefully slice the pork.
7. Mr. Postier and Mrs. Tyler count money and tickets at the door.
8. Student Senate members Connie Puckett and Theresa Steffen serve the pork and other goodies to Mrs. Beechler and others.

10. Some of the guests included Mr. and Mrs. Keist and Mr. and Mrs. Carney.
11. Mr. Divers hurries to join the line of waiting guests.
12. After the barbecue begins the long and tedious process of cleaning the roasters.

**SEPTEMBER 29—WHOLE HOG BARBECUE:** A tremendous amount of work went into making the Fourth Annual Whole Hog Barbecue a success. The committee for the barbecue included the following faculty and students: Sue Hanson, Mr. Stahl, Mrs. Beechler, Mr. Coberley, and Roy Ball. About five hundred people attended the barbecue and even though four hogs were barbecued, there was still some question of running out of food. Besides the barbecued pork, baked beans, cole slaw, rolls, beverages, and dessert were served. The roasters had to be lit very early in the morning in order for the pork to be done when the first guests arrived at four o'clock. Students helped prepare the pork, serve the food, and clean the roasters when the BBQ was finished. Several art students repainted and decorated the roasters for the big event. The barbecue was a lot of work, but most agreed that the effort was worthwhile because of the fun and the \$700.00 raised for student scholarships.

**CROSS COUNTRY:** The Cross Country team was coached by Dan Thornton. Home Cross Country meets were held in Baker Park in Kewanee. The Cross Country team had a season record of 0-6.

3. The only disadvantage of cross country running is that a Roger Pratt might jump out of the bushes and grab you.
4. Mitch Winn portrays the loneliness of the long distance runner as he covers the winding miles of the course.
5. There seems to be mass confusion at the starting line.
6. And the runners are off!

**CHICAGO TRIPS:** Trips to Chicago seemed to be the thing to do both in the fall and in the spring. Not only did the Student Senate sponsor a trip to Chicago to see "Chicago" perform, but the Art Club visited several art museums in Chicago as well.

**THE OVERALL STORY**  
**"What BHE is All about"**

Faces, faces, faces . . . a thousand beautiful faces . . . each one unique . . . each one so very precious . . . I love each and every one of them . . . see them smile . . . see them cry . . . see them contemplate . . . see them being themselves . . . see them enjoying life . . . we each wear many faces in one day . . . we are students and teachers . . . friends and lovers . . . athletes and spectators . . . sons and daughters . . . employers and employees . . . brothers and sisters . . . men and women . . . which is the REAL us? . . . Shakespeare once said:

"All the world's a stage  
And all the men and women merely players.  
They have their exits and their entrances;  
Each man in his time plays many parts."

me and you? differences. extremes. shy and—bold. bitter and bright. hating and loving . . . what do i want from you? teach me. help me. talk to me. listen to me. understand me. love me . . . the way things are with me? i hate. i envy. i waste. i need attention. i need to be appreciated. i want to respond. i want to love . . . tomorrow? together we could share our lives. we could speak and hear . . . are you willing to help me? lend me a hand. teach me. to take advice. to admit my errors. to share. to shoulder responsibility. to gain freedom. to keep on keeping on. to give. to think for myself. to make the most of all things. to keep out of a rut, to love . . . without you? i would have nothing. you are my everything. you are my brother. my comrad. my faith. my strength. my friend. you are believing. you have faith in me. you listen. you care. you are what i need. help me?

The time is now for us to LIVE, LOVE, and LEARN. Our time here together is limited. There is so much that we must do. It is crucial that we LIVE each moment to the fullest possible extent. It is likewise important that we come to know and accept the many facets of LOVE, its pleasures, its pains, and its responsibilities. And finally we must LEARN, both about others and ourselves. Chesterfield warns that we should: "know the value of time; snatch, seize, and enjoy every moment of it. No idleness; no laziness; no procrastination; never put off till tomorrow what you can do today."

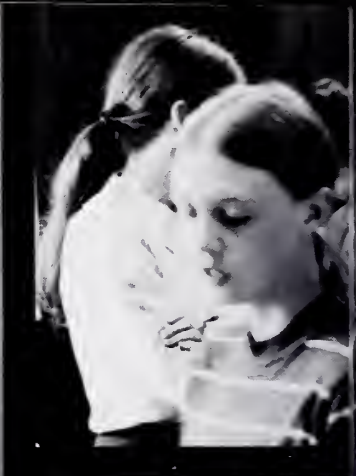

We live in a very beautiful world. Nature possesses so much variety and splendor—it is quite difficult to fully comprehend and appreciate these wonders. By observing nature, we notice many changes. The seasons change from spring to summer to fall to winter. Plants and animals mature from a single cell to a complex being. Man, too, must change. As he learns more about himself and about others, his attitudes, beliefs, and values change in a like manner. George Bernard Shaw once said: "Progress is impossible without change; and those who cannot change their minds cannot change anything."

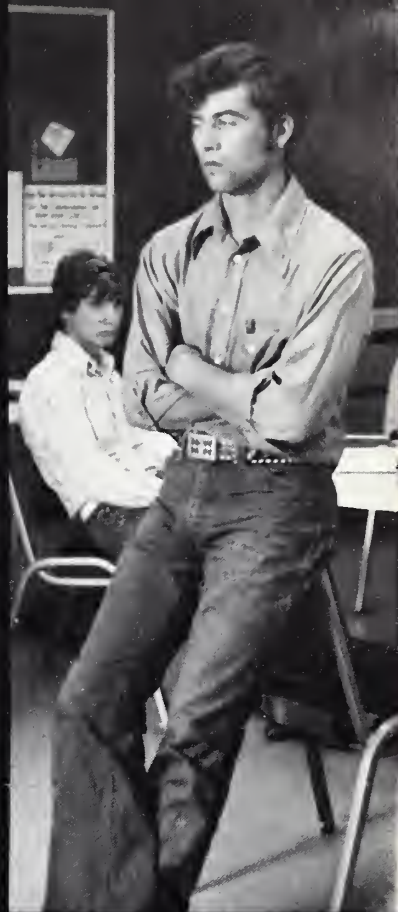

We are each individuals, searching for our own identities. Most of us find it relatively easy to "take" in our daily experiences. But a genuine difficulty arises when we must "give". It is not easy to give of one's self, but when you can give fully of yourself to another, you can truly be "yourself".

But "To be nobody-but-yourself in a world which is doing its best, night and day, to make you everybody else—means to fight the hardest battle which any human being can fight; and never stop fighting."

—e. e. cummings

Life, too, has its special moments, moments meant to be shared with others. Man was never meant to be a solitary creature but part of a community. John Donne conveyed this idea when he wrote:

"No man is an island, entire of itself; every man is a piece of the continent, a part of the main; if a clod be washed away by the sea, Europe is the lesser, as well as if a promitory were, as well as if a manor of thy friends or of thine own were; any man's death diminishes me, because I am involved in mankind; And therefore never send to know for whom the bell tolls; it tolls for thee."

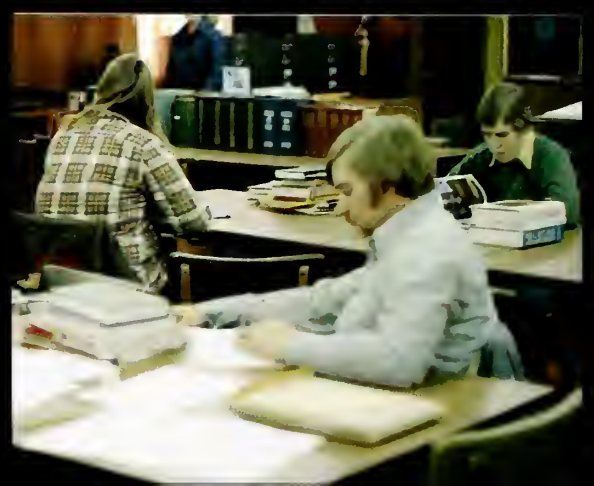

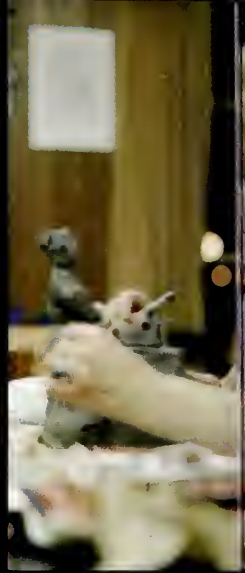

Why did we decide to go to college? What was our motivating factor? Was it because "everyone else is going"? Because "I don't have anything better to do"? Because "I want a good job when I graduate"? Because "I want to be discovered by some baseball/basketball/football scout from the pros"? Because "I want to have a good time while I'm young"? Because "I want to grow intellectually"? Because "I want to find a man/woman"? Because "I want to find myself"? What is the real reason? Viktor Frankl said: "Man ultimately decides for himself! And in the end, education must be education toward the ability to decide."

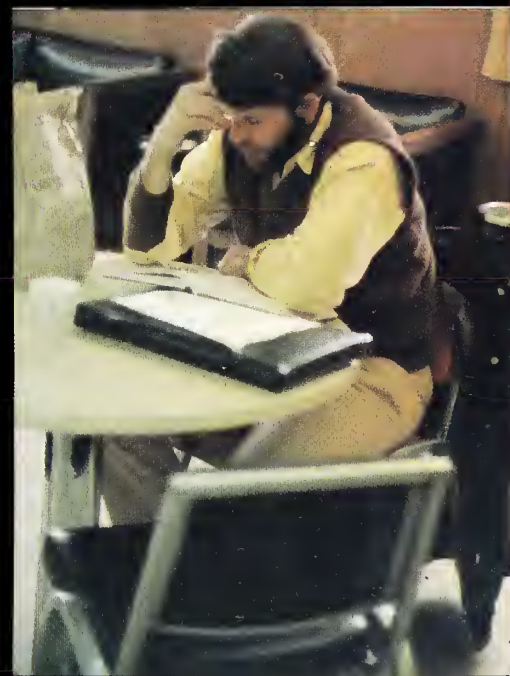

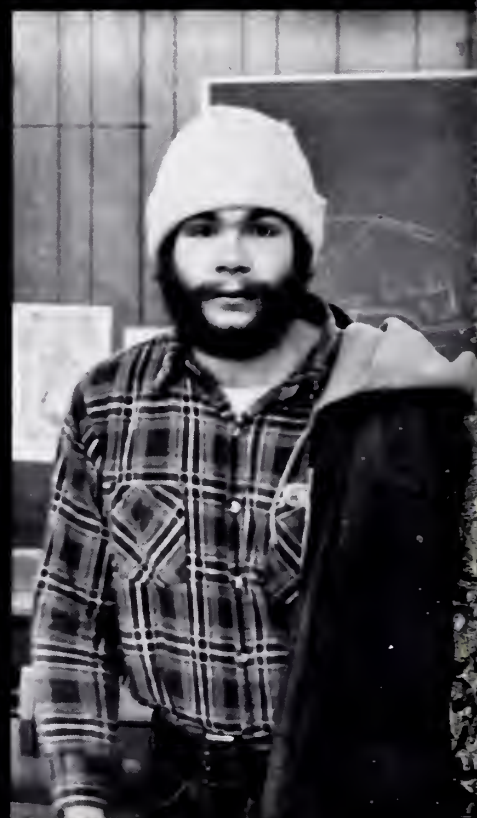

The one thing which distinguishes man from all other living creatures is his ability to think creatively. He can search for answers to questions he encounters in his daily life. He can discuss possible solutions to problems that plague himself or mankind. He can convey his thoughts and opinions on a subject in a variety of ways: through words, through music, through art, through actions. Psychologists contend that most of man's behavior must be learned. But Galileo once said: "You cannot teach a man anything. You can only help him discover it within himself."

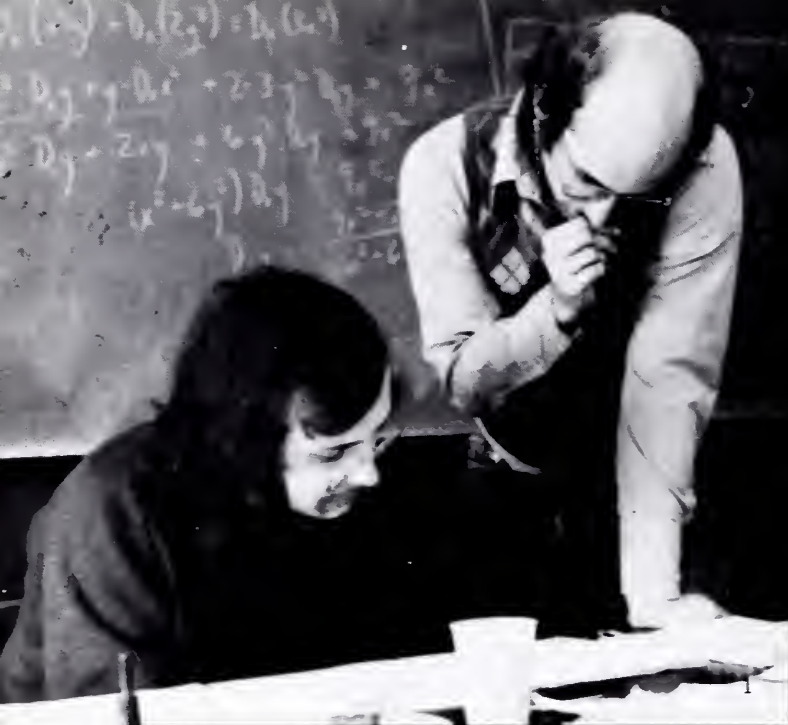

QUESTION: What do you get  
when you add one photographer  
and one camera at BHE?

ANSWER: 500 "camera-shy"  
comedians (some people will do  
ANYTHING to get their picture  
taken—or to PREVENT it from  
being taken!!!)

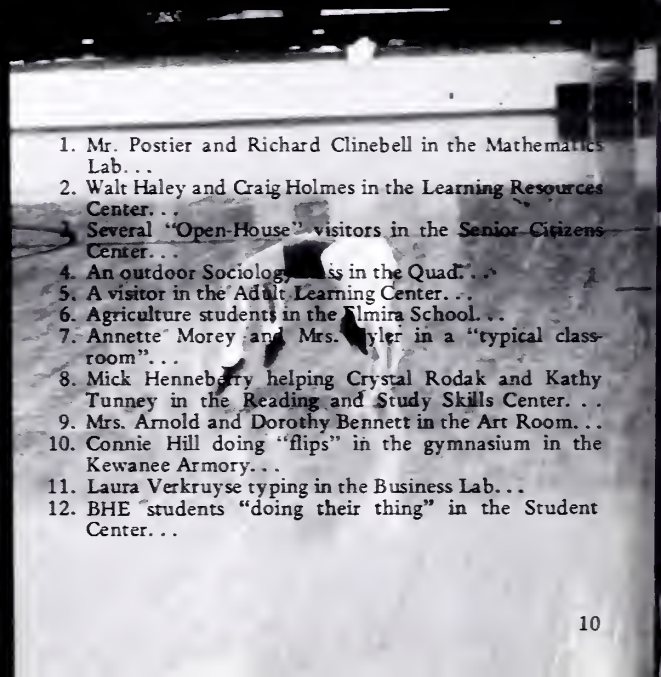

Black Hawk College—East Campus is more than just “four little buildings sitting on top of a hill.” Some of the agriculture students attend classes in Elmira. Adult Basic Education students attend classes in the Adult Learning Center located in Bracken’s Shopping Center in Kewanee. Senior citizens gather in the Senior Citizens Center also in Kewanee. Adult Continuing Education students attend classes held in the various high schools throughout the area.

But more than a place, BHE is people.

1. Mr. Postier and Richard Clinebell in the Mathematics Lab. . .
2. Walt Haley and Craig Holmes in the Learning Resources Center. . .
3. Several “Open-House” visitors in the Senior Citizens Center. . .
4. An outdoor Sociology class in the Quad. . .
5. A visitor in the Adult Learning Center. . .
6. Agriculture students in the Elmira School. . .
7. Annette Morey and Mrs. Tyler in a “typical classroom”. . .
8. Mick Henneberry helping Crystal Rodak and Kathy Tunney in the Reading and Study Skills Center. . .
9. Mrs. Arnold and Dorothy Bennett in the Art Room. . .
10. Connie Hill doing “flips” in the gymnasium in the Kewanee Armory. . .
11. Laura Verkruyse typing in the Business Lab. . .
12. BHE students “doing their thing” in the Student Center. . .

#### BUILDING PROGRAM AND ACCREDITATION VISIT:

Two important, ongoing processes reached significant, favorable stages during the spring of '75.

Above is the architect's model, a tentative design, for the permanent facilities of Black Hawk East. The complex, designed by Perkins and Wills, a Chicago-based architectural firm, was presented at the May Board Meeting. The plans had received approval from the State Development Board, one of the countless steps in the process from concept to concrete.

During the summer construction documents (blueprints, specifications, and so forth) will be developed and bids taken. If all goes well, a ground-breaking ceremony in the fall will herald the beginning of construction.

Another process, that of evaluation (by self and by others), was highlighted by the January visit of a North Central Association Evaluation team. Both campuses of Black Hawk College were evaluated by the nine-member team during the three day visit to see whether the SELF STUDY REPORT truly represents the college.

Dr. Livingston, chairman of the team, voiced his first impressions of the East Campus, saying "I am very much impressed by the spirit, the openness of the administration, faculty, and students."

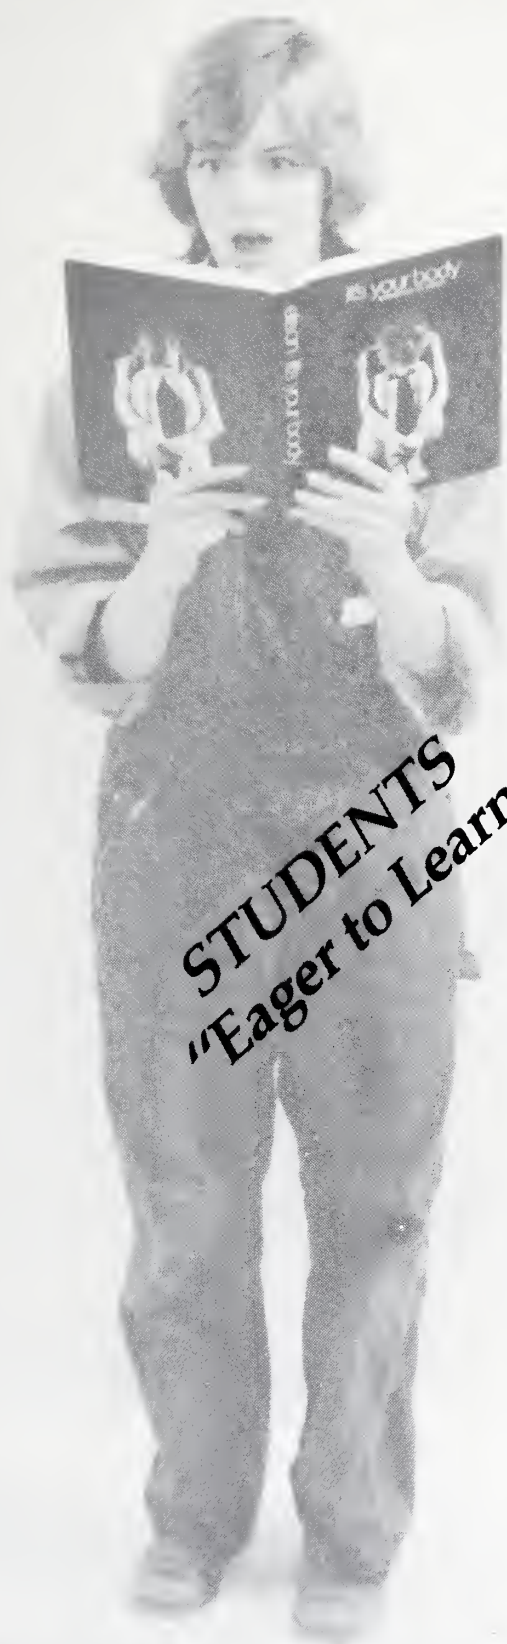

On January 21 the visitors discussed the state of the college with students and staff on the East Campus. Individual interviews and an Open Forum, shown below, explored where we've been, where we are, and where we're going.

On April 9 the North Central Association announced that the East Campus had earned full membership-accreditation for the maximum period granted new members, five years, and the Quad Cities Campus received continued full membership for the maximum period of ten years.

The evaluating team noted this about the East Campus in making its recommendation for accreditation: "This is a vital, warm, and dynamic campus. Discussion with faculty, students, and staff amply confirm the visitor's impression that positive growth and learning are taking place here."

Seems like many BHEers are camera shy and didn't have their "mugshots" taken, but those who did give some idea of the diversity of individuals here. Though our differences are many, we still share many common goals, ideas, and expectations.

YES, IT WAS A GREAT YEAR: the Warriors placed third in State Basketball competition, the North Central visit was successful, the Livestock and Horse Judging Teams continued to place high, honors were bestowed on students and faculty alike. And YES, each of us did learn a lot this year—about our studies, about each other, and about ourselves. And YES, most are thankful for having had the opportunity to attend BHE. But on the last day of school most of us reach an important realization: THIS IS NOT THE END, RATHER, IT IS A BEGINNING—a beginning of a new awareness, a new independence, a new quest.

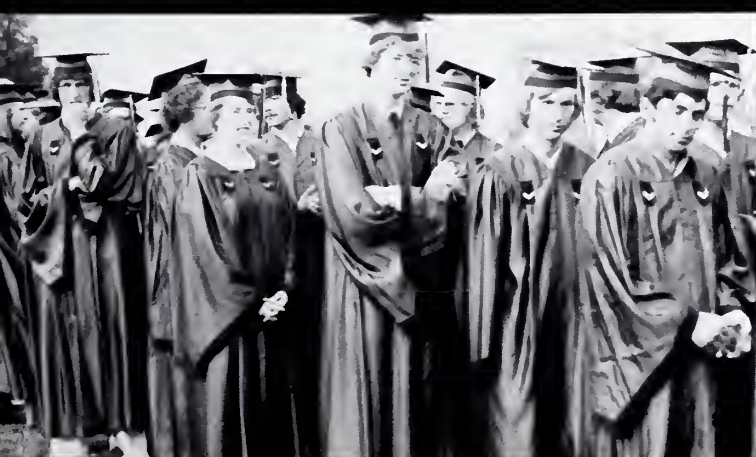

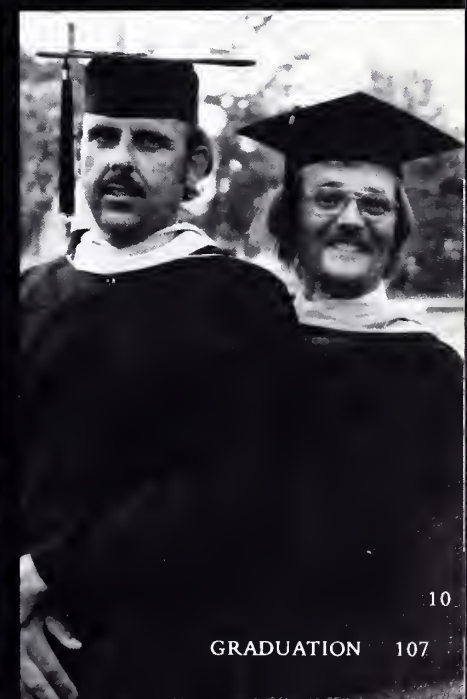

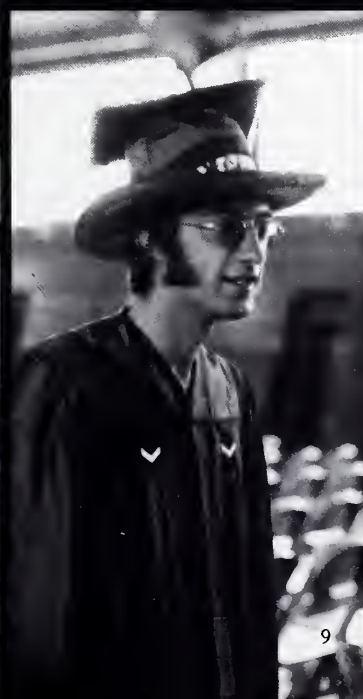

This year's honor graduates included: SUMMA CUM LAUDE—Paul Lacey, Bob Mercer; MAGNA CUM LAUDE—Dennis Fowler, Loren Hays, Pat Williams; CUM LAUDE—Debbie Kaiser, Alan Koch, Becky McNeal, Lila Olfson, and Dale Smith.

**MAY 19—GRADUATION:** During BHE's Seventh Annual Commencement, seventy-seven Associate Degrees were awarded and eighteen Certificates were awarded. Mr. Rey Brune gave the Commencement address. Mrs. Dorothy Smith was presented a plaque, honoring her upon her retirement. Mr. Gust Lundberg then spoke and presented the certificates and degrees.

#### ESPECIALLY FOR YOU!

We tried many new things to make this 1975 WAHIAN "something special"! And we hope you enjoy this "overall" view.

We would like to thank everyone who helped make this yearbook a reality.

As a "retiring" editor, I would also like to give a special thanks to YOU! You were always there to provide that extra "boost" when things went wrong (which was quite often, it seems!) You always stressed how important it was to dare to be a little different. All I can say now is—I tried (but I promise to keep on trying!)
